

MENU VERSATILITY

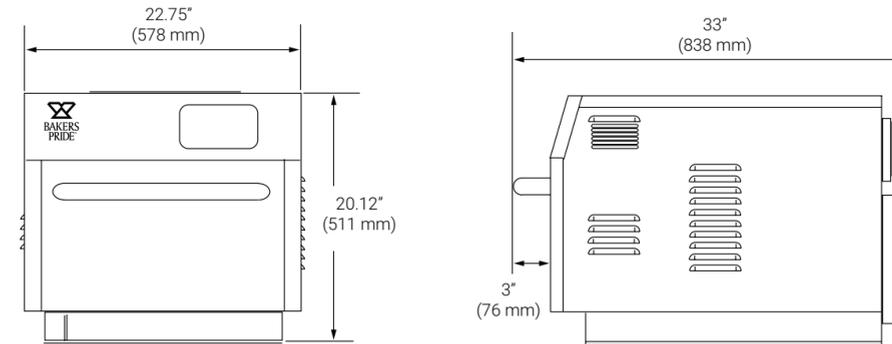

The E300 speed oven is designed to cook food from scratch, not just reheat frozen items. It can replicate any menu item that can be cooked in a traditional convection or combination oven yet in a fraction of the time—without sacrificing food quality or taste.

VERSATILE. FAST. COMPACT.

E300 SPEED OVEN

“The E300 speed oven has allowed me to serve customers freshly baked potatoes and similar items concurrently with my entrée items. I have less waste and better product quality.”

— Chef Frank Barrett-Mills

The Bakers Pride® E300 Speed Oven combines enhanced microwave power and top and bottom air impingement to provide menu flexibility and impressive cooking speed in a small footprint. The side-launched microwaves allow you to use low-profile metal pans. The air speed is adjustable from 10% to 100% so you can cook, reheat, bake, or brown any combination of proteins, vegetables, or baked goods—all with superior results.

You can easily program 384 recipes with up to six cooking steps each from the easy-to-navigate touchscreen display. New menus and firmware can be uploaded via the USB port. Cleaning the oven is simple thanks to removable jet plates and smooth, all-stainless surfaces throughout the cooking chamber.

The E300 is a perfect choice for high-volume and quick-serve restaurants, hotels, grocery delis, coffee shops, and pubs.

Cook Times

Breakfast Sandwich	0:30
Nachos Grande	1:00
Chicken Wings (frozen)	2:30
8" Sub Sandwich	0:45
14" Pizza (frozen thin crust)	1:30

FEATURES

Menu flexibility. Control and manage up to 384 recipes with up to six programmable phases that provide flexibility with proteins, vegetables, and baked goods.

Side-launched microwaves allow the use of low-profile metal pans.

Top and bottom air impingement. Toast and brown from the top and bottom for perfect results.

Simple operation. The touch screen menu is easy to navigate so you can find the right recipe, right away.

Simple cleaning. Removable jet plates allow access to the entire cooking cavity. Coated microwave windows and stainless steel makes cleaning easy.

Ventless operation. The ventless system allows the oven to be used anywhere.

Stackable. Stack up to two ovens to save space and increase production.

Easy USB Updates. The side-mounted USB port allows the operator to easily upload new menu items, images, and software updates.

Simply amazing accessories. The optional Meteorite® cooking stone provides excellent heat distribution and retains heat for much longer than traditional stones. The simple panini grill plate adds beautiful char marks to any product without breakage-prone mechanical parts.

CLEAN UP KITCHEN CLUTTER

A commercial kitchen is often a busy space cluttered with cooking equipment suited only for a single purpose. What if you could consolidate all that equipment and speed up production? That's where the E300 comes into play. It can bake, steam, reheat, grill, and char a wide range of menu items in a single, space-saving oven.
